Central Ohio Radio Club, Inc. (CORC)

Operating repeaters since 1970

Membership application

CORC operates repeaters with outputs of 52.70, 146.76, 146.97, 147.33 and 444.200

Some of the features include:

Autopatch access to Columbus area phones. IRLP linking on 147.33

Rapid access dialing to public service telephone numbers.

Repeaters used by the Central Ohio Weather Net and Central Ohio Traffic Net.

Multiple receiver sites located in Franklin, Licking, Delaware, Pickaway and Logan Counties to ensure excellent coverage throughout Central Ohio.

General Membership allows full use of the *CORC* facilities, Operating Manual, subscription to the *CORC* Newsletter, and a vote at the annual meeting of the corporation.

We welcome amateurs in your family at the same address membership at no additional charge.

Associate membership is available to interested parties that live outside the general coverage area of the repeaters for \$10.00

Associate members have no voting privileges and receive an e-mail copy of the newsletter.

Universal Radio - Quality equipment since 1942.

UV-5R

- 4W VHF/4W UHF
- Li-ion Battery
- Wide/Narrow BW
- DTMF Keypad
- Dual Display
- 128 Alpha Memories
- Voice Guide
- Encode/Decode

The **Baofeng UV-5R** is a compact, economical HT for 136-174 and 400-480 MHz. The extended VHF receive band covers 65-108 MHz to include the FM broadcast band. Dual watch and dual reception is supported. Other features include: 128 memories, selectable wide/narrow, battery save, VOX, DCS/CTCSS encode, key lock and built in flashlight. Frequency steps are: 2.5, 5, 6.25, 10, 12.5 and 25 kHz. RF power selectable at 4 or 1 watts. Comes with SMA-J flexible antenna, Li-ion battery (7.4V 1800 mAh), belt clip, wrist strap, AC adapter (8.4V 600ma) and charging tray. Requires purchase of the USB-02 programming cable (#2226 \$19.95) and downloading of software prior to use. This *FCC part 90* radio operates differently from traditional amateur equipment, and would not make a good first radio. It does not operate natively in the VFO mode and is not as frequency agile. It works best when frequencies are programmed into memory and operated in a channelized mode.

Order #0205 **\$64.95**

BAOFENG UV-3R

The **Baofeng UV-3R MkII** is a compact *F.C.C. Part 90* hand held transceiver providing 2 watts in the frequency range of 136-174 MHz and 400-470 MHz. It features 99 memories, High/Low power, time-out timer, lock, monitor channel, VOX, CTCSS encode, 1750 Hz burst, dual band display, battery saver, LED flashlight, low battery alert and emergency alert. It will fit in your shirt pocket at only 1.75 x 3.25 x 0.95". The UV-3R comes with Li-ion battery, AC charger, SMA antenna, manual and belt clip.

Order #0403 **\$49.95**

UV3R Accessories

#	Model	Item Description	Price
5935	BL3	Li-ion 3.7V 1500 mAh	12.95
2469	SPKR MIC 3	Speaker Mic (1 pin)	12.95
2894	USB03	USB Program Cable	12.95

UV-5RA

- 4W VHF/4W UHF
- Li-ion Battery
- Wide/Narrow BW
- DTMF Keypad
- Dual Display
- 128 Alpha Memories
- Voice Guide
- Encode/Decode

The **Baofeng UV-5RA** is stylish HT for 136-174 and 400-480 MHz. It is similar to the UV-5R, but with slightly different button shapes and some firmware changes. Manual programming of any of the UV-5R radios is difficult. The USB02 programming cable is recommended.

Order #5934 **\$64.95**

UV-5RC

- 4W VHF/4W UHF
- Li-ion Battery
- Wide/Narrow BW
- DTMF Keypad
- Dual Display
- 128 Alpha Memories
- Voice Guide
- Encode/Decode

The **Baofeng UV-5RC** is a compact, dual band HT covering 136-174 and 400-480 MHz. The UV-5RC is the latest member of the UV-5R family and boasts similar features, but has a more curved and rounded chassis. The USB02 computer programming cable is highly recommended.

Order #4133 **\$64.95**

UV5R Accessories

#	Model	Item Description	Price
5876	BL5	Li-ion 7.4V 1800 mAh	19.95
5933	BL5L ¹	Li-ion 7.4V 3800 mAh	34.95
5894	EAR MIC	Ear Mic	9.95
0935	ELIM	Mobile batt. eliminator	19.95
2284	SPKR MIC	Speaker Mic (2 pin)	19.95
2226	USB02	USB Program Cable	19.95

¹For UV-5R only (not for A or C versions).

MFJ-136RC

The **MFJ-136RC** is a solar-powered, 12/24 hour desktop clock that never needs batteries! It features a large LCD display (1 5/8" x 2 1/4") and gives precision radio-controlled time synchronized from government station WWVB in Boulder, Colorado plus shows the date. Press the snooze button to backlight the LCD (for 4 seconds). It also features an alarm with 5 minute snooze function. With auto D.S.T. 3 x 4.5 x 1.5 inches. List \$29.95.

MFJ-136RC Order #4972 **\$24.99**

PS30SWIV

The **QJE PS30SWIV** switching power supply provides 13.8 VDC at

20 amps continuous, 30 amps surge. The output voltage may be selected fixed at 13.8 VDC or adjustable from 9 to 15 VDC. Red and black (30A) terminals on the rear panel. Low amperage tip jacks on the front panel. The LCD digital panel meter *simultaneously* displays voltage and current. There is a Noise Off-Set control that can be adjusted to eliminate pulse noise from the power supply. Ripple is less than 100mV p-p at load. Input 110/220 VAC. 6.1 x 2.8 x 8.1" 3.3 pounds. List \$129.95 Order #5851 **\$109.95**

CORC Annual Meeting Announced!

The 43rd Annual Meeting of the Central Ohio Radio Club, Inc. will be held on Sunday, February 24, 2013 at the Genoa Township Hall. The Pot Luck Dinner will start at 6 pm. A flier is enclosed with this newsletter. The club will provide soft drinks, coffee, paper plates and plastic-ware. Please bring a covered dish and serving utensils. We are giving away another Two-Meter Mobile Rig. As like previous radio raffles, any paid up MEMBER present, is automatically given one ticket per family. Non-members and additional tickets may be purchased at the door for \$5.

Election of directors, whose terms are expiring, will take place as well as an overview of the last year's operations. Those directors are: Laura Perone KA8IWB, Anthony Fabro N8RRB and Warren Hull W8VET. Volunteers for committee chairs will also be taken and appointed by the President.

Anyone wishing to nominate a member for a board position should contact WA8KKN, Charles Wood, Chairman of the Nominating Committee, in writing, at least ten days prior to the meeting. Letters of Intent can be mailed to: Charles Wood, 5322 Spruce Lane, Westerville, OH 43082 or can be e-mailed to Charles at: cwood1@att.net. Any member can nominate or be nominated for a board position. Be sure to have the nominee present a letter of consent with your nomination.

For your information, and according to the by-laws, printed below is Article V, Section 10 "Election of the Board" from the current CORC Constitution.

The election of Directors to replace those whose term has expired shall take place at the Annual Meeting of the Members, or at a special meeting called and held for that purpose. At least twenty (20) days prior to the date of which such an election is held, the Board of Directors shall appoint a Nominating Committee consisting of three (3) persons who may but need not be directors. Such committee shall prepare a list of candidates to fill the Board of Directors and nominate such candidates at the meeting. Other nominations may be made from the general membership; however, any candidate's name so placed in nomination must be submitted in writing and accompanied by written consent of the nominee to the Nominating Committee and least ten (10) days prior to the meeting. A director's failure to attend two (2) consecutive meeting may result in declaration, by simple majority of the directors, the position vacant...

This newsletter is being mailed to all members as notice of the Annual Meeting, even if you requested the newsletter by e-mail. This is required by our by-laws. For many members, dues are now due. Check the label on the cover for your expiration date. We would like to get all members into the January rotation so please use the guide on the page next to the application to find your dues amount. Please fill the application out in full if anything has changed from what's printed on the label. We are trying to make sure we have everyone's up-to-date home address. If correct, just mail in the label page in with your payment. We also need an e-mail address if you receive the newsletter electronically. Please use an address that is not forwarded as those e-mails are usually bounced. Thank You!

CORC Presidential News

Winter is here. This year has quickly gone by. I hope you have your radio systems, including standby power, ready to enjoy the airwaves this winter.

This past year CORC has had tech nets twice a month on 147.33 on Sunday evenings at 7:30 PM. Tony, N8RRB and Rick, WA3UOO, have done a good job planning these. If you have any ideas for topics let them know. Do check in, we know there are many who listen and don't check in.

The six meter repeater continues to keep the technical committee busy. They try to make it a reliable repeater but it likes to keep them scratching their heads. It has now has multiple receivers at different locations on different receive frequencies.

I want to again thank KB8UVN, Matt for an up to date presentation on packet radio at the October pot luck.

For those wanting to make those last minute cash tax donations, remember CORC is a 501c3 organization. The club thanks you in advance for your donations.

Here is an interesting fact: CORC's dues have not gone up in over 30 years!

Membership is holding pretty steady from last year however... Without NEW members and current members paying their dues CORC can't exist. PLEASE, PLEASE encourage users of the repeaters that are not members to become one in 2013!

The next CORC potluck is Sunday, February 24, 2013. I hope you can make it so I can put a face with a call. It is always fun to have an eyeball with a contact you have made. Invite a non club member to attend as they are always welcomed.

73,
Laura
KA8IWB

IMPORTANT REMINDER

From your membership chairman
John / W8RXX

Please check the address label on the front of THIS newsletter for your membership expiration date. Many memberships expire December 31, 2012. You can save the club money by sending your dues in NOW and not having a reminder sent. The membership application is on the other side of the mailing page with your label on it. If you don't have any changes, you need not fill out the membership application just mail that in with payment. If you have changes, please fill it out in full and mail in that page with your payment.

CORC THANKS YOU FOR YOUR CONTINUED SUPPORT !!!

Membership Notes!

Thanks to the following CORC members who have donated time, talent, extra money or equipment to the club in addition to their dues since the last newsletter printing.

WA8UHB	N8OCQ	KD8OLJ	KD8SSD	KA8IWB
W8RRJ	W8NBA	WD8QWR	N8RRB	WA8KKN
KB8CIQ	WD8JKX	KC8ASF	W8RXX	

We want to welcome the following who have joined CORC since the last newsletter was printed. Please welcome and thank them when you hear them on the air.

KD8SSD - Lew (I messed his call up last newsletter – sorry!)		
KD8SNH – Bryan	KD8TFT – Don	KD8TFF - Robert
KD8TIZ – Robert	KD8SYX – John	KB8RUN – Don
KD8DEX – Charles	N8WXE – Joe	

Congratulations to the following winners at the October 7, 2012 Meeting

Lila	W8FEH's XYL won the 50/50 Drawing
KD8ODY	Dave won a \$25 gift card (A twice in a row winner)
KC8ASF	Tony won a \$25 gift card

Plan to attend our next meeting / pot luck on Sunday, February 24, 2013 where a 2 meter mobile radio will be given away.

30 years ago in the CORC Repeater News (December 1982)

- FCC gives 10 MHz to Hams:
 - o At 3 p.m. on Oct. 28, 1982, the FCC released the major portion of the 10 MHz band for use by amateurs in its jurisdiction effective immediately. U.S. Amateurs holding General, Advanced and Extra class licenses may use up to 250 watts input and A1 and F1 emissions in the band segments 10.100-10.109 and 10.115-10.150 MHz. These emissions include CW and RTTY operation. Voice modes are not permitted.
- President Reagan Signs HR 3239, the FCC Revision Act
 - o Word has been received that the President signed the bill on September 13, 1982. The bill has more impact on amateur radio than anything in recent history. Some of the major changes are:
 - The FCC may now use volunteers in preparing and administering amateur exams
 - The FCC will be allowed to use amateur monitors to assist in gathering data for prosecuting regulatory violations
 - The bill has a plan to increase the amateur license to 10 years
 - The bill also authorizes de-regulation of CB (no more CB licenses)
 - The FCC is now authorized to establish minimum standards for RFI susceptibility in home entertainment devices

Travelin' Tony's Timetables

by: Anthony "Tony" Fabro N8RRB

Greetings to one and all! Best wishes to you for a safe and happy holiday season and for a prosperous 2013!

The CORC Tech Net is well into its second season of topics. The net meets every other Sunday (more or less) at 7:30PM on the 147.330 repeater (PL 123.0 Hz). So far this year the net has tackled the topics of batteries, mobile installations, repeaters and station maintenance. Listen to the announcements on 146.760 or 147.330, check the CORC webpage at www.corc.us or log into the CORC Yahoo group for a list of past and future topics. Rick WA3UOO and myself coordinate the topics for the nets.

The net, while focused at talking about amateur radio topics in a more detailed technical manner, still strives to simplify the material when possible. We make the assumption that there is a broad spectrum of hams listening and/or checked in. They may be brand new hams or 20+ year veterans, or hams with a little technical knowledge to those who are true "techies".

We've also found that there are a lot more people listening than who have checked in. We encourage everyone listening to check in even if you have nothing to add to the topic for the evening. Make your voice heard!

Topics for nets are always welcome! Send any topic ideas to technet@corc.us and we will try to work them into a future net. In addition, if you feel you have a topic that you would consider to be a subject matter expert (SME) let us know. While the topics do not necessarily have to be about ham radio, they should be related to the hobby in some way.

Thank you to everyone who has checked in and/or participated as a subject matter expert for the net. We hope you find the net interesting and educational.

Have a safe day.

Did You Know?

That a database of all upcoming Amateur Radio Tests Sites are kept at: <http://www.arrl.org/find-an-amateur-radio-license-exam-session> .

That Scott N3FJP has a web site where you can download many study guides and other Amateur related software at: <http://www.n3fjp.com/>.

That Handiham is non-profit organization that helps persons with any combination of physical and sensory disabilities by providing tools, technology and education to become effective amateur operators. You can find them at: <http://www.handiham.org/drupal2/> .

That no matter where you live, you could end up in the middle of a natural disaster. You may not be able to salvage what you had, but with the ARRL Ham Radio Equipment Insurance Plan you can get the help you need to get back on the air. Insurance is available to protect you from loss or damage to your amateur station, antennas and mobile equipment by lightning, theft, accident, fire, flood, tornado and other natural disasters. Check <http://www.arrl.org/home> for that and more!
